SUMMARY

Product UI/UX Designer with 5+ years of experience creating intuitive B2B SaaS and consumer web and mobile products. Advanced in Figma, UI and UX design, responsive design, user flows, wireframes, prototyping, usability testing, and design systems. Experienced collaborating with product managers, developers, and stakeholders, using product metrics and user feedback to guide design decisions. Hands-on with Claude Code and Cursor for functional prototyping, realistic usability testing, edge-case validation, and more efficient design-to-development workflows.

WORK EXPERIENCE

Product Designer – Yesim

2021 – 2026

Worldwide eSIM store · 3M+ customers · B2B & B2C · Web & Mobile · full-time (remote)

- Led end-to-end product design for B2B and B2C web and mobile products, from discovery and workflow analysis through prototyping, delivery, design QA, and post-launch monitoring.
- Improved design operations and implementation quality, achieving 4x faster Figma file preparation and 30% fewer style-related QA issues.
- Built a design system from scratch for a three-product B2B ecosystem, introducing token-based theming for sub-brand customization.
- Designed complex B2B workflows and data-heavy interfaces, including forms, settings, customization flows, and reusable UX patterns across web and mobile.
- Combined A/B testing, GA4, and BigQuery analysis with moderated usability testing to validate product hypotheses and prioritize improvements.
- Built functional prototypes with Claude Code and Cursor to test realistic interactions, validate edge cases, and improve collaboration and developer handoff.

Product Designer – SMBF

2020 – 2021

Online reputation SaaS platform · Web · 0 → 1 · full-time (remote)

- Designed and validated core B2B SaaS workflows for the MVP launch through user flows, wireframes, and interactive prototypes.
- Contributed to product branding and created marketing materials for the MVP launch.
- Collaborated with product and engineering teams to refine the product through iterative releases.

Product Designer – Eventssion

2018 – 2020

Event management and ticketing platform · Web, iOS, Android · B2B and B2C · 0 to 50K users · full-time (on-site)

- Shaped and maintained a consistent UX across 3 platforms as the product grew from zero to 50,000 users.
- Led a team of 3 designers: set direction and maintained quality standards.
- Designed concepts, user flows, wireframes, and prototypes.
- Conducted usability studies with end users.

Android Developer – Eventssion

2016 – 2018

Event management and ticketing platform · Android · B2C · 0 to 50K users · full-time (on-site)

- Developed and maintained Android application features in Java.
- Implemented UI screens and application logic based on product requirements.
- Participated in code reviews, testing, and release preparation.

SIDE PROJECTS

Score Counter — Android App · Solo project

2016 – Present

Score and tally tracker for board games, card games, and group activities · Google Play

- Built and launched the Android app as a solo product, owning product design, UX, Android development, and release management.
- Reached a 1M+ installs · 100K+ MAU · 43% store conversion · 4.8/5 rating

Paragraphus — Android App · Solo project

2020

Literature discovery app · Built during COVID-19 lockdown

Designed the app to help readers discover world literature by content and theme instead of title or author.

SKILLS

Product Design: UI design, UX design, responsive web and mobile design, user flows, wireframes, interaction design, prototyping, design systems, UX writing

Research & Insights: Qualitative user research, moderated usability testing, research synthesis, quantitative analytics, hypothesis validation, user feedback

AI-Assisted Design: Claude, Claude Code, Cursor, functional code prototyping, AI-assisted prototyping, edge-case validation, design workflow improvement

Product Analytics: Product metrics, GA4, BigQuery, conversion optimization, post-launch analysis

Tools and Technical Skills: Figma, FigJam, HTML, CSS, Android development, Java, frontend implementation constraints

EDUCATION

Specialist Degree in Computer Science · Kremenchuk Mykhailo Ostrohradskyi National University

CERTIFICATIONS

Amplitude Expert - Analysis · Amplitude · 2026

Claude Code in Action · Anthropic · 2026

Claude 101 · Anthropic · 2026

Foundations of User Experience (UX) Design · Google · 2022
